FOR IMMEDIATE RELEASE

Media Release

PowerGen delivers on commitment to support during the recent Planned TGU Outage

PowerGen was able to deliver the full electricity requirement beyond our normal contractual obligation to T&TEC during the recent planned shutdown of Trinidad Generation Unlimited (TGU) from November 25th to 26th, 2023. The success of this exercise was made possible with constant collaboration and support from T&TEC who is our sole customer and majority shareholder.

We wish to publicly express our gratitude for the exceptional efforts displayed by all team members involved in the planning, Maintenance, Quality Assurance, IT, Operations, HSE and other members of the critical incident management teams and support.

Employees demonstrated dedication to maintaining all available Units at the Pt. Lisas and Penal Power Stations operational and safe. It was truly an exceptional demonstration of resilience and technical expertise by our PowerGen colleagues exemplifying our Core Values – "We Care for Our Country" and "We Deliver Results".

In a congratulatory message to employees, PowerGen's General Manager- Dr. Haydn I. Furlonge shared, ***"In a critical period when the Nation depended on us the most, the support of our employees ensured an uninterrupted power supply, showcasing PowerGen's pivotal role in supporting the Country's energy needs. Beyond being PowerGen employees, you can rightfully be recognised as a source of pride for the entire Country."***

The collective effort of every PowerGen employee continues to live up to our Mission statement: "To exceed our customers' expectations for quality energy in a safe and environmentally responsible manner, creating value for our customers, employees, and shareholders."
